Introduction

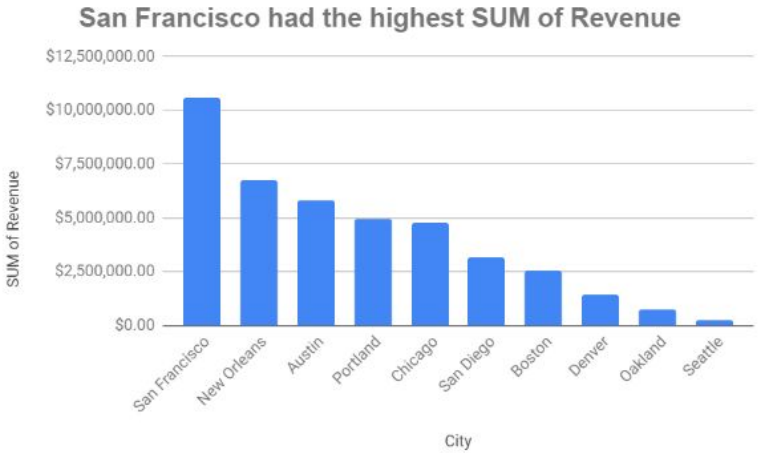

PATHSTREAM

- To expand services to new cities by creating a nationwide marketing campaign to attract new hosts
- Request additional funding
- Identified data-based evidence of successful host traits and analyzed the relationship with revenue
- Hosts can optimize the following:
  - Number of Listings
  - Days Listed
  - Entire Home/Apartment
  - 24 Hour Check-Ins and Private Entrances
  - Couches and Real Beds
  - Number of Reviews

Increase Number of Listings and Days Listed within Cities

- What city made the most revenue and what made it the most successful?
  - San Francisco had the highest sum of revenue among all of the other cities
    - Why? Highest number of listings and average of days listed (Shown on Next Slide)
    - Sum Revenue of San Francisco: $10,592,942.31
- Current/potential hosts that increase their number of listings and days listed within their cities generate the most revenue and are successful

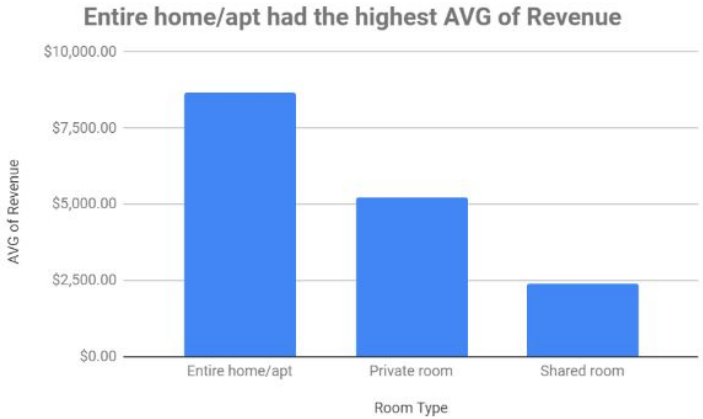

Increase Number of Listings and Days Listed within Cities (cont.)

Grand Total	**5456**	**433.9585777**	**31.93346774**	**0.1758803586**	**$7,526.95**	**$41,067,015.87**

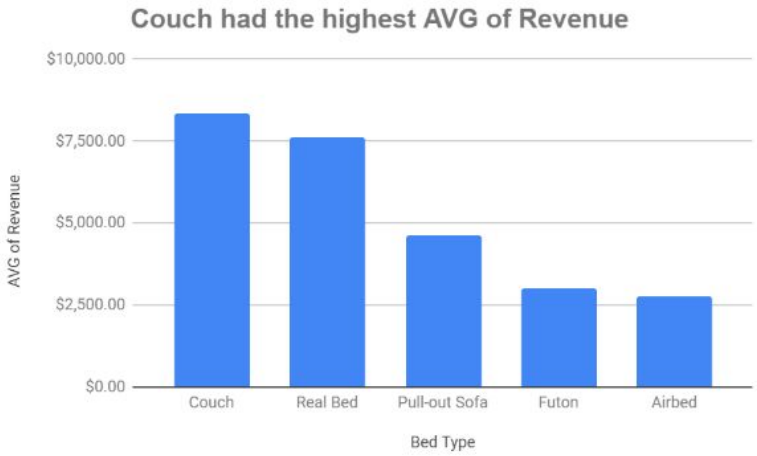

Offer More of The Entire Home/Apartment

- How do room types affect revenue?
  - Entire home/apartment had the highest average of revenue compared to private rooms and shared rooms
    - Entire home/apt: $8,644.43
- Current/potential hosts that offer this room type earn the most revenue and are successful

Provide More Couches and Real Beds

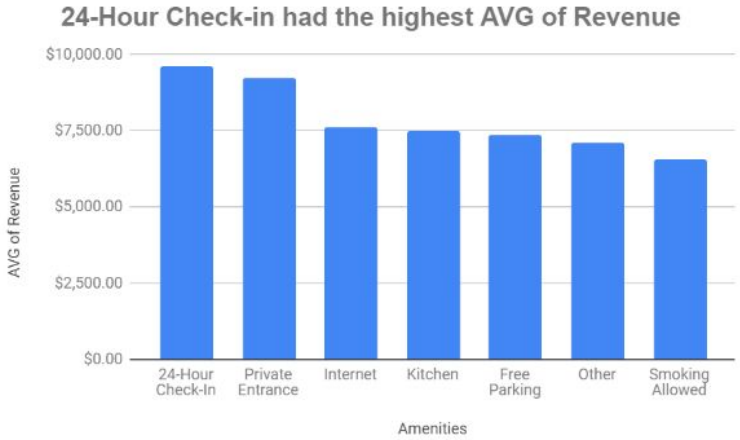

- How do bed types affect revenue?
  - Couches and real beds have the highest average of revenue opposed to pull-out sofas, futons, and airbed
    - Couches: $8,320.81
    - Real Beds: $7,612.87
- Current/potential hosts that provide more couches and real beds earn the most revenue and are successful

Offer More 24-Hour Check-Ins and Private Entrances

PATHSTREAM

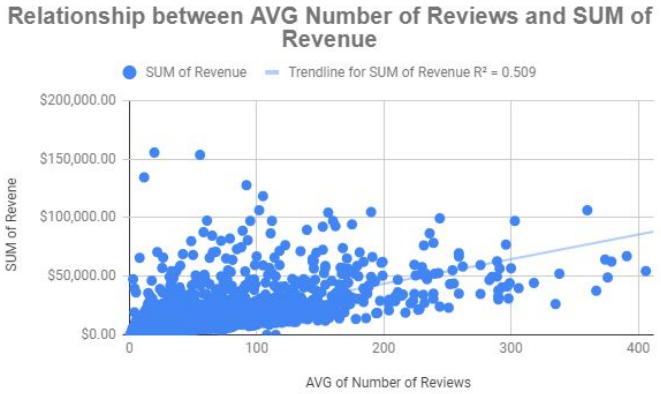

- Which amenities affect revenue?
  - 24 hour check-ins and private entrances have the highest average of revenue versus internet, kitchens, free parking, other, and smoking allowed
    - 24 Hour Check-Ins: $9,603.03
    - Private Entrances: $9,252.15
- Current/potential hosts that offer 24 hour check ins and private entrances earn the most revenue and are successful

Encourage More Reviews on Listings

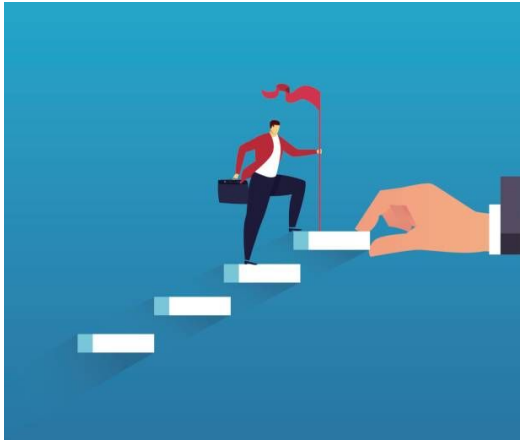

PATHSTREAM

- Is there a relationship between average number of reviews and sum of revenue?
  - There's a good relationship as the trendline indicates greater than 0.5
    - R^2=0.509
- Current/potential hosts that have a high average number of reviews may also earn the most revenue

Next Steps

- Nationwide Marketing Campaign
  - Expand to new cities
  - Attract new hosts
  - Show the value of being a host
  - Inform people “What Makes a Successful Host?”
- We would like to request additional funding for this to happen

Conclusion

PATHSTREAM

- Recommendations:
  - Increase number of listings and days listed within cities
  - Offer more of the entire home/apt
  - Provide more couches and real beds
  - Offer 24 HR check-ins and private entrances
  - Encourage more reviews on listings
- These traits make hosts successful
- Nationwide Marketing Campaign
